(Revision)

Std:- 4

Subject:- Computer

F.A.1

Total marks:- 30

1 Who invented the Tabulating machine.

- (a) Abacus (b) John Napier
(c) Charles babbage (d) Dr. Harman Hollerith

2 IPO cycle stands for

- (a) Input Print Open
(b) Input Processing Open
(c) Input Process output
(d) None of these

3 _____ are much smaller size and work very fast.

- (a) ENIAC (b) Analytical engine
(c) modern computers

28
22 28

$$\square + \square + \square + \square + \square = \square$$

4 — was the first calculating device
(a) Abacus (b) IBM mark-1 (c) ENIAC
(d) modern computer

5 ENIAC stands for
(a) Engine Indian and calculator
(b) Electronic Integrator calculator
(c) Engine Integrator and count
(d) None of these

6 IBM mark-1 was also called
& which is the first calculating device?
(a) Rithmic table (b) Logarithmic table (c) None

7. IBM mark-1 is made up of set a set of
(a) wood (b) electronic (c) ivory strips

8 Use of punched cards to input data started a new
era in computing.
(a) Powerful (b) era (c) None

9 — John Napier invented a calculating device
(a) 1946 (b) 1916 (c) 1614

10 The word computer comes from — word compute.
(a) Japan (b) India (c) Greek

11 How many years ago the first
calculating device Abacus was invented
(a) 1500 years ago (b) 2000 years ago
(c) 2500 years ago (d) 3000 years ago

Page 3

12 IBM stands for —

- (a) Interstate Business machine
- (b) International Business machine
- (c) India Business machine
- (d) None of these

13 Who invented the Analytical engine.

- (a) Blaise pascal
- (b) Charles babbage
- (c) John pascal
- (d) Grace Hopper

14 When was ENIAC invented?

- (a) 1940
- (b) 1942
- (c) 1946
- (d) 1948

15 — was calculating device which run on electricity.

- (a) Tabulating machine
- (b) Analytical engine
- (c) Napier's Bone

16 Compute which means to

- (a) calculate or count
- (b) count
- (c) none

17 Early man used their — for counting.

- (a) Fingers
- (b) sticks
- (c) bones
- (d) All of these

18 Abacus consists of a wooden frame fitted with

- (a) thin wires
- (b) beads
- (c) both a & b

19 modern computers are — machine.

- (a) multipurpose
- (b) automatic
- (c) both a & b

20 keyboard has more than _____ keys.

- (a) 20 (b) 500 (c) 100

21 Who invented IBM marks-I?

- (a) Blaise Pascal (b) Charles Babbage
(c) Grace Hopper

22 Which of the following is an Input device?

- (a) monitor (b) Printer (c) speaker
(d) mouse

23 Which of the following is an output device?

- (a) keyboard (b) monitor (c) scanner

24 What are Input device?

- (a) keyboard (b) mouse (c) Joystick
(d) All of these

25 CPU stands for

- (a) central Processing Unit
(b) control Print Unit
(c) central Print Unit (d) None of these

26 VDU stands for

- (a) Visual Display Unit (b) Visual Unit Display
(c) None

27 Dot matrix printer works similar to a

- (a) computer (b) typewriter (c) Ink

Std - 4th

Page 5

28 Dot matrix Printer prints in _____ colour.

- (a) white (b) Pink (c) black

29 Inkjet Printer prints both text and _____

- (a) Picture (b) images (c) graphics

30 Inkjet Printer gives the printouts of _____ quality

- (a) good (b) best (c) Excellent

31 mouse is an _____ device.

- (a) Input (b) output (c) Process (d) All of these

32 _____ is used to draw figures directly on the screen.

- (a) monitor (b) speaker (c) Dot matrix Printer
(d) light pen

33 _____ unit stores the data and information temporarily in it for processing.

- (a) monitor (b) Speaker (c) Dot matrix Printer
(d) All of these

- (a) MU (b) CU (c) ALU

34 _____ Printer gives best quality printouts.

- (a) Inkjet Printer (b) Dot matrix Printer
(c) Laser Printer (d) none of these

35 _____ controls are the operations of computer according to the given instructions.

- (a) memory unit (b) Arithmetic logic unit
(c) control unit

378
379
380

$$\square + \square + \square + \square + \square = \square$$

- 36 monitor looks like a _____
(a) CD (b) TV (c) computer
- 37 _____ called logical operations.
(a) +, -, ÷, x (b) >, <, = (c) none
- 38 How many types of monitor _____
(a) 2 (b) 4 (c) 1 (d) 0
- 39 IP stands for
(a) Inkjet Printer (b) Information Paragraph
(c) None
- 40 Dot matrix Printer stands for
(a) DPS (b) DMP (c) none
- 41 Which machine did multiplication and division by repeated addition and repeated subtraction respectively?
(a) Pascaline (b) IBM mark-1
(c) Tabulating machine
- 42 Which device used for copy the text from paper to computer.
(a) mouse (b) scanner (c) printer
- 43 Which of the following pair is an input device?
(a) keyboard, printer (b) monitor, speaker
(c) Joystick, Lightpen
- 44 The devices through which you enter the data and instructions in computer are called

Std- 4th

+ + + + =

(7)

- (a) Input device (b) Output devices
(c) Processing (d) None of these

45 — is the brain of computer.
(a) CPU (b) memory unit (c) control unit

46 Which of the following pair is an output device?

- (a) mouse, Lightpen (b) Joystick, Printer
(c) Printer, speaker

47 Blaise pascal is known as 'father of computer.

- (a) True (b) False

48 memory Unit controls all the functions of computer.

- (a) False (b) True

49 Who helps you to listen music and sounds.

- (a) speakers (b) Laser Printer
(c) Inkjet Printer
