* Define

- 1) Marsupials
- 2) Reproduction
- 3) Albumin
- 4) Metamorphosis.

* Answer the following questions

- 1) What is hatching?
- 2) What are the stages in the life cycle of a frog?
- 3) How do mammals reproduce and take care of their young ones?
- 4) What are the stages in the life cycle of a butterfly?
- 5) Why do we need oxygen for breathing?
- 6) What things maintain just the right amount of warmth on earth?
- 7) Why do living beings need water?
- 8) What thing do plants need to make their food?
- 9) What is called Caterpillar?
- 10) Write the name of the all mammals animals?

4th

Page No. _____
Date _____

* True or false

- 1) Sunlight is harmful for plants.
- 2) Plants are animals depend on each other.
- 3) The green pigment of leaves is called chlorophyll.
- 4) Atmosphere circulates the heat over the earth.
- 5) Animals that have hair on their bodies do not lay eggs.
- 6) Mammals give birth to their young ones directly.
- 7) All insects lay eggs.

* Fill in the blanks.

1. _____ is the main source of heat energy on the earth.
2. _____ are able to make their own food.
3. plants and _____ depend on each other.
4. Roots absorb water and minerals from the _____.
5. Mammals have _____ on their bodies.
6. The egg _____ to give out the body baby bird.
7. A _____ comes out of an egg in some days.

* M.C.Q.

1. Human body contains water

a) 75%

c) 90%

b) 80%

d) 95%

2. People who need oxygen cylinders are _____

a) Water

c) Soil

b) air

d) Plant

3. Atmosphere is a thick layers of

a) Air

c)

b)

d) Both of them,

4. If we destroy plants we harm

a)

c)

b)

d)

5. The yellow portion of a birds egg is called _____

a) Albumin

c) yolk

b) Mammals

d) None of them,

6. The eggs then go through several stages before becoming adult

insects, this process is called _____

- a) Albumin c) Reproduction
b) Metamorphosis d) None of them.

7. The Caterpillar forms a shell is called _____

- a) Cocoon c) Yolk
b) Round d) Caterpillar

8. Each egg hatches to produce a young one is called _____

- a) Larva c) Shell
b) Cocoon d) All of them

9. Most fish lay eggs in _____

- a) Water c) plant
b) Sand d) lake

10. Snakes lay their eggs on the _____

- a) plant c) Water
b) sand ground d) lake
