FAU Revision. [2018-19]

Std - 5th (a+b).

Ch no - 4, 5, 6.

Q-1 choose the correct option.

1) Who was the first person to land on moon.

- a) Neil armstrong b) Edwin Aldrin
c) Michel collins.

2) Which of these does not exist on the moon.

- a) air b) water c) Both a & b.

3) Which type of surface do the moon have?

- a) smooth & equal b) Rough & uneven
c) None of these.

①

$$\square + \square + \square + \square + \square = \square$$

4) Solar eclipse occur when moon comes between the sun and the earth.

a) True (b) False (c) none of these

5) The regular rise and fall in the level of water in the sea is known as.

a) Tides (b) Umbra (c) satellites

6) Floods, cyclones, drought are which type of disasters.

a) Natural (b) Artificial (c) None of these

7) A sudden trembling of the earth's crust is known as.

a) Earthquakes (b) seismology
c) Tsunami

8) The result of very poor rainfall is

a) flood (b) drought (c) earthquake

a) The waves in tsunami can be as high as.

a) 8-10 metres (b) 15-20 metres (c) 20-30 metres

3

$$\square + \square + \square + \square + \square = \square$$

10) Among which one is the example of natural disaster

a) Earthquake b) flood c) None of these

11) we should not play

a) on the roof b) in the park c) in the field

12) which of the following is a poisonous substance?

a) mustard oil b) boot polish c) salt

13) The immediate help given to an injured person is called.

a) first aid b) treatment c) Extra care

14) Any break or crack in the bone is called a _____

a) fracture b) Burn marks c) None of these

15) To stop bleeding we should tight bandage called.

a) Deep cut b) tourniquet c) Nose bleeding

215

$$\square + \square + \square + \square + \square = \square$$

16) Rocks and stones along with mud slide down the hill or mountains this is called.

a) Deforestation (b) Land slide (c) Drought

17) It can cause due to scarcity of waterfall.

a) Floods (b) Drought (c) Earthquake

Q-2 Fill in the blanks.

1) The saliva of dogs and cats contain viruses of rabies.

2) In case of small burn apply an antiseptic cream on the burnt area.

3) Any break or crack in the bone is called fracture.

4) Famine occurs when there is an acute shortage of food.

5) Land slides occur in rainy season.

6) The earthquake is a sudden trembling

of the earth crust.

7) Lava is very hot

8) The moon has no light of its own.

9) The first artificial satellite was Sputnik - I

10) Artificial satellite EDUSAT was launched in 2004.

11) If the clothes of a person catch fire cover him with a blanket.

12) Deforestation is the main cause of land slides.

Q-2B True or false.

1) The changing shapes of the moon are called the phases of the moon -

True

5

[] + [] + [] + [] + [] = []

2) The highest tides are caused on a New moon day - True.

3) Richter scale can measure flood - False.

4) cholera may spread during a flood - True.

5) Naphthalene balls are not poisonous - False.

6) we should play with knife and match sticks - False.

7) cyclone is the example of natural disaster - True.

Q-20 match the following

1) The first spacecraft

Tide (2)

2) The rise and fall of water in the sea.

Apollo 11. (1)

3) Lunar eclipse.

Moon in shadow.
moon in shadow (3)

4) Natural disaster.

Earthquake (4)

□ + □ + □ + □ + □ = □

Q-3a) Answer the following questions.

1) What are tides? How are they caused?

A The regular rise and fall of the level of water in the sea, caused by the pull of the sun and the moon is called tide.
